4. **Request for new "Board Games" item statistical code – ACTION**

Fremont requested a "Board Gamea" statistical code for their board game collection. Several CCS libraries do collect board games, and those libraries are currently using "Other," "Miscellaneous" or "Library of Things" as the statistical codes for these items. After discussion, the group recommended approving a stat code of "Games" rather than "Board Games" to allow the code to be used more broadly, for both board games and other types of games like card games.

B. Halcli moved and R. Pekarek Smith seconded to approve a new item statistical code for Games.
